

UPDATE IN MEDICAL TOXICOLOGY

2nd - 4th November 2011

Holiday Inn-Cardiff City Centre

This three day course is designed for those interested in medical toxicology including nurses, specialist registrars and other physicians (particularly those working in accident and emergency medicine) who wish to gain expertise in the practical management of common toxicological problems. Other health care professionals working in the field of medical toxicology may also find the course valuable.

Expert speakers/topics will include

Dr T F Beattie – paediatric poisoning
Dr S Bradberry – cardiovascular poisons
Mr Dorian Davies – the uncooperative patient
Dr R Evans – management of poisoned patient in A&E
Dr A Hutchings – laboratory results
Ms Dacia Jones – poisoning in pregnancy

Prof P. A Routledge – drug induced liver injury
Dr D J M Reynolds – unexpected hypoglycaemia in secondary care
Dr J P Thompson – drugs in sport/ basics of radiation exposure
Dr J Tracey – drugs of abuse
Prof J. A Vale – methanol and glycols
Dr S Waring – lipid administration: role in poisoning

Course will be accredited for Continuing Professional Development

Places are limited and early application is advised.
